Sir,

I have the honor to forward the accompanying supplemental estimate for the repair of the Nandy temple.

2. In Proceedings No 692-3 dated 58-93 the 23th December, Government sanctioned five estimates amounting to Rupees 2103 of these No II was for removing and rebuilding the Kalyana Mantapams in front of the Bhogavandeswara's temple the foundations of these Mantapams had sunk and the superstructure rested on the Kanadas of Bhogavandeswara's temple a comparatively later construction, of which the Munzoy the Superintendent directed the removal. In pulling down the latter the cornice gave way and came

came down with a crash breaking some nicely shaped stones which they composed the same. In rebuilding the ankanams it is now necessary to manufacture similar stones. The accident was unavoidable and happened in spite of the utmost care that was taken. It was owing entirely to the dilapidated state of that part of the temple. When the Kanatteswara's temple was removed it was found that the curiously carved facing stones of the pial or platform bordering on it had gone. How this happened could not be ascertained as this appendage had been built long anterior to the memory of any living man at Nandy. These stones have now to be manufactured in order to give the temple a uniform appearance, as simple dressed stones would look very awkward, side by side and in continuation of the neatly carved stone facing of the other parts of the same platform. In these circumstances I have the honor to request that this supplemental estimate may receive sanction, in anticipation of
